Subject: Help with the briefing while I am out of commission

Jose,

(b)(6) privacy Ayn said she would try to answer questions that you might have for me regarding the Pavillion briefing. She can enlist the help of GWERD researchers (in particular: Dr. Dom Digiulio and Dr. Rick Wilkin) to get answers, if need be.

I have also requested assistance from Dr. Randall Ross on estimating:

- 1) the time range for each of the four scenarios (a-d) depicted in the MW01 purging approach (Slide #9 in today's last update of the briefing), and
- 2) the ratio of well storage water to formation water at the end of each purge cycle depicted in the MW02 purging approach (Scenarios "c," "e," "g," and "i" of Slide #13)

I've asked Randall to "cc" Ayn on any emails to me so that she is copied on responses.

I believe those were the action items assigned to me following today's briefing with Bob Sussman and Glenn Paulson. I expect to be back (b)(6) privacy

sometime Wednesday.

- dgj -
